Introduction

We would like to invite you to take part in our research study. This consent form describes the research study and what it means to participate. Please take as much time as you need to think about your decision to participate or not and ask any questions you have. If you have any questions, please contact one of the members of the research team. All participation is voluntary, and you are not under any obligation to participate.

Why this research study?

We are interested in exploring what insights and impacts are experienced by attendees of this unique and innovative Plum Village style retreat focused on the integration of science, compassion and meditative practices. Through this study we hope to contribute to the growing global dialogue around the role mindfulness teachings and practices can play in supporting wellness on both an individual and collective level.

Why participate in this study?

By participating in this study, you will help our research team better understand the challenges and aspirations that members of our global community are experiencing. This study is also an opportunity to reflect on your experience of the retreat and anonymously contribute to future retreat curation and publicly shared recommendations for practical applications of Plum Village practices across different sectors.

What to expect: Time commitmentBefore the retreat

- Consent form (5 min)
- Pre-survey (10–15 min)

After the retreat

- Post-survey immediately following retreat (10–15 min)
- Post-survey two months later (10–15 min)

How many participants will be in this study?

All attendees of The Wonder of It All: A Plum Village Retreat for Scientists are being invited to participate in this study.

What is the inclusion/exclusion criteria for this study?Inclusion criteria

- Able to read and write in English
- Able to independently consent to participation in this study
- Attending The Wonder of It All retreat, June 20th–27th, 2025

Exclusion criteria

- Participants who do not attend the retreat

Institutional Ethics Approval

The study has received institutional ethics approval through the University of Toronto.

What are the risks, harms or discomforts of the study?

There are no significant risks expected, however, some survey questions may invite personal reflection where you might experience temporary discomfort or mild unpleasant emotions. Please know you are free to skip any question that you would not like to answer.

How will my privacy be protected?

All information collected will be kept anonymous. While every effort will be made to keep your responses confidential, and the risk of identifying you from the study data is very small, it can never be completely eliminated.

Can I choose to leave the study?

Participation in this study is voluntary, and it is your choice to take part. You can change your mind at any time during the research study, and you do not need to give a reason to withdraw from the study. Data collected prior to your withdrawal may be included in the study unless otherwise requested. Withdrawal from the study will not have any effect on your relationship with the research team and/or the University of Toronto and/or Plum Village. If you decide to withdraw from the study, please contact the Principal Investigator or a member of the study team to let them know.

Will I be paid and/or reimbursed if I join this study?

You will not be paid or reimbursed for participating in this study. We are grateful for your time and reflections.

Will I receive study results?

The research team plans to share the study findings, including reports and publications. We will share these with the retreat registration list.

Who can I contact if I have questions about the study?

If you have questions about this study, you can contact the Investigators listed above under Principal/Co-Investigator(s).

If you have questions about your rights as a research participant, you can also contact the University of Toronto's Research Oversight and Compliance Office – Human Research Ethics Program at ethics.review@utoronto.ca or 416-946-3273.

University of Toronto Quality Assurance

The research study you are participating in may be reviewed for quality assurance to make sure that the required laws and guidelines are followed. If chosen, (a) representative(s) of the Human Research Ethics Program (HREP) may access study-related data and/or consent materials as part of the review. All information accessed

by the HREP will be upheld to the same level of confidentiality that has been stated by the research team.

4. **By signing this research consent form, I understand and confirm that:** *

1. I have read and understand the information within the informed consent form,
2. I understand that participation is voluntary, and I may withdraw at any time,
3. I do not give up any of my legal rights by signing this consent form,
